COMMENTS AND COUNTERPROPOSAL

Comal Broadcasting Company ("Comal Broadcasting"), by counsel, hereby submits its comments and counterproposal in connection with the above-captioned Notice of Proposed Rulemaking ("NPRM"), proposing the allotment of Channel 253C2 to Blanco, Texas. As shown below, Comal Broadcasting believes that the public interest would be better served by the allotment of Channel 253C2 to Blanco, Texas, as the station would provide a first local service to the community of Blanco, Texas.

I. DISCUSSION

- 1. Under the Commission's Rules, community allotment priorities are ranked in the following order:
 - 1) first full-time service;
 - 2) second full-time service;
 - 3) first local service; and
 - 4) other public interest matters

Co-equal weight is given to priorities 2) and 3). <u>See Revision of FM Assignment Policies and Procedures</u>, 90 FCC 2d 88 (1992).

- 2. As demonstrated in the engineering statement attached hereto as Exhibit 1, Comal Broadcasting's proposal would represent a first local service at Blanco, Texas. Consequently, the Blanco allotment of Channel 253C2 would be a higher and better use of the channel than the upgrade proposed by Reding Broadcasting Company. See generally, Benton, El Dorado, Hampton, Harrison, Mena and Sherwood, Arkansas; Homer, Louisiana; Salisaw and Vinita, Oklahoma; and Hooks and Hilgore, Texas, 2 FCC Rcd 1963 (1987).
- 3. Blanco, Texas, is the county seat of Blanco County. The city has a population of 1,238 persons, while the county has a population of 5,972 persons, according to the 1998 Rand McNally Commercial Atlas. Blanco is, therefore, a community for purposes of the Commission's table of allotments.
- 4. As shown in the engineering statement, FM Channel 253C2 can be assigned to Blanco, Texas, utilizing the allotment reference co-ordinates N 30-01-12, W 98-36-44 in full compliance with the Commission's spacing requirements. Moreover, a transmitter operating at the allotment site will provide sufficient city grade coverage.
- 5. In view of the above, Comal Broadcasting respectfully requests that the following channel changes be adopted by the Commission:

City	Present	Proposed	
Hondo, Texas	253A	290A	Action to the second control of the second c
Bandera, Texas	252A	276A	
Blanco, Texas		253C2	
Blanco, Texas		253C2	

6. If the Commission assigns Channel 253C2 to Blanco, Texas,
Comal Broadcasting will apply for a construction permit and will construct a new
facility upon award of that permit.

WHEREFORE, in accordance with the above, Comal Broadcasting

Company respectfully requests that Channel 253C2 be assigned to Blanco,

Texas and the proposed upgrade of FM Channel 252A at Pleasanton, Texas be denied.

June 8, 1998

Comal Broadcasting Company

ENGINEERING STATEMENT

Comments and Counterproposal MM Docket 98-55 Pleasanton, Hondo and Bandera, Texas June1998

ENGINEERING STATEMENT

This firm has been retained by Comal Broadcasting Company to prepare this engineering statement in support of its counterproposal in the above captioned proceeding. This Docket 98-55 proposes that the FM Table of Allotments be amended to assign FM Channel 253C2 to Pleasanton, Texas, as an upgraded channel for the presently assigned FM Channel 252A at Pleasanton, Texas. In order to accomplish this upgrade at Pleasanton, it is proposed that FM Channel 290A be assigned to Hondo, Texas, as a replacement channel for its presently assigned FM Channel 253A, and that FM Channel 276A be assigned to Bandera, Texas, as a replacement channel for the presently assigned FM Channel 252A. Reding Broadcasting Company, licensee of Radio Station KBUC(FM) at Pleasanton, Texas, has indicated to the Commission that the licensee of KRBH(FM) at Hondo, Texas, has agreed to relocate its transmitter site, and likewise, the licensee of Radio Station KEEP(FM) at Pleasanton, Texas, has consented to the change in its channel.

It is proposed that the Commission assign FM Channel 253C2 to the community of Blanco, Texas, as a first local service. Blanco, Texas, is the

county seat of Blanco County, and the city has a population of 1238 persons.

The county has a population of 5,972 persons, according to the 1998 Rand

McNally Commercial Atlas.

FM Channel 253C2 can be assigned to Blanco, Texas, utilizing allotment reference co-ordinates N30-01-12, W98-36-44. This allotment site is located 20.4 km southwest of Blanco, Texas, (US Atlas co-ordinates N30-06-06, W98-25-18), and a transmitter operating from this sample site fully complies with the Commission's minimum mileage requirements provided that FM Channel 253A at Hondo, Texas, and FM Channel 252A at Bandera, Texas are relocated as proposed in the Commission's Notice of Proposed Rulemaking.

Attached as Exhibit E-1 is an FM Channel Study conducted on FM Channel 253C2 at the requested allotment reference site, N30-01-12, W98-36-44). This study clearly demonstrates that the requested allotment can be made in accordance with the minimum mileage separation of the Commission's Rules, and a transmitter operating at the allotment site will illuminate the community with the required 70 dbu city grade signal.

In view of the foregoing, it is requested that the channel changes as outlined below be adopted and that the Commission amend the FM Table of Allotments accordingly.

City	Present	Proposed	
Hondo, Texas	253A	290A	
Bandera, Texas	252A	276A	
Blanco, Texas		253C2	

The above change in the FM Table of Allotments provides a first local service to the Community of Blanco, Texas. As the assignment of a first local service to a community has a higher priority than the upgrade of an existing facility, the above changes in the FM Table of Allotments should be adopted and the proposed upgrade of FM Channel 252A at Pleasanton, Texas, should be denied.
